

POSITION

Undergraduate Internship

HIRING FOR

Summer 2020

WHO WE ARE

Rhia Ventures is a social investment enterprise transforming women's reproductive health by harnessing new capital and the power of the markets. We place venture capital in early stage companies that are developing solutions to challenges in contraceptive and maternal health care, and related areas.

Our [Shareholder Advocacy program](#) works with investors to engage directly with companies in dialogue, to promote greater corporate responsibility in four areas that impact reproductive health care: insurance, voluntary benefits, public policy and corporate political spending.

OUR TEAM AND CULTURE

We are investment professionals and shareholder strategists who are dedicated to the mission of improving women's reproductive health. We value diversity, have the courage to trust quickly and engage honestly, and deliver high quality results consistently over time in a work environment that is flexible and accounts for our families and private lives. We value collaboration, kindness, academic rigor, and learning from our successes as well as our failures. We are continuously developing ourselves and our organization.

INTERNSHIP DUTIES

This is a research position that will have you combing corporate web sites, nonprofit publications, academic databases and much more, to help inform our shareholder advocacy program. Some research questions will be part of specific projects (e.g., preparing issue briefs or correspondence), and some will be one-offs.

The position offers a tremendous learning opportunity and a chance to work side-by-side with experts in the field of reproductive health care, venture capitalists, and experienced activists.

This is a 10-week position envisioned to extend from June through mid-August. Start and end dates are flexible.

HOURS AND WAGES

The position is available for 20 hours a week, at \$15.00 per hour without benefits (payable as you go, or as a lump sum stipend at the completion of the internship). Should working in shared office spaces become possible by summer, we can provide office space in downtown San Francisco or Boston. Under the present circumstances, however, the geographic location of applicants is of secondary importance.

Hours are flexible within a 9-to-5 framework.

QUALIFICATIONS

- Interest or background in reproductive health/rights/justice; corporate accountability; healthcare; business and finance; gender equity; diversity and inclusion; or related areas.
- College-level research skills
- Ability to cut through the noise of internet research and focus on the task at hand
- Excellent writing and communications skills
- Curiosity and attention to detail
- Ability to work independently
- Outstanding references
- Computer access

DEADLINE TO APPLY

APRIL 20, 2020

Please send your resume, reasons for applying, and a writing sample to:
